Liquid Horsepower

Octane Booster

- Increases octane effect up to 10 points while improving combustion in all grades of gasoline.
- Relieves stress on engines caused by poor combustion.
- Increased power, lower emissions, better fuel mileage.
- Keeps fuel fresh during storage.
- Super concentrate for easy transportation.
- Recommended for use in all stock and modified gasoline engines whether carbureted or injected and with or without catalytic converter and oxygen sensor.
- View strip with five gallon increments for precise measuring.
- Lubricates top end and keeps fuel system clean.
- Use in engines with compression ratios up to 10:1.

Fuel Fragrances

- Fuel fragrances are intended to set you apart from the rest by giving your exhaust a pleasing aroma.
- In 1992, Manhattan Oil introduced Fuel Fragrances to be used in gasoline, methanol, and diesel fuels.
- One four ounce bottle treats 10-20 gallons of gasoline, 30-55 gallons of methanol, or 5-10 gallons of diesel.
- The product is widely used from lawnmowers to top fuel dragsters.
- They do not enhance or inhibit performance and are safe to use in all internal combustion engines.
- For best results use in vehicles without catalytic converters.
