Insta Pan Seat Pan Kit

- Gain huge time and cost savings with this high-strength kit
- No more hammered sheet metal or pouring fiberglass
- Combine two clay-like components, then roll them out onto provided fiberglass fabric, cut to shape then lay in place to cure overnight.
- Two-part epoxy material with integrated Kevlar® pulp is super strong and can be machined like hardwood
- Kit makes one seat pan approximately 14" X 24", dual riders requires large kit

PART	DESCRIPTION	MSRP
